Summary:

Full Stack Developer with 5.5 years of expertise, proficient in crafting robust web applications, specializing in responsive front-end interfaces, seamless data flow, and RESTful API development.

Skills:

- **Frontend** - JavaScript, React Js, Redux, TypeScript
- **Backend** - Node.Js, Express.Js
- **Database** - mySql, Sql Server, MongoDB

Experience:

Web Developer - Accenture (Jul 2021 - Present)

- Led my team to successfully deliver high-quality code within stringent deadlines, showcasing effective leadership in project management.
- Spearheaded the implementation of techniques to enhance the overall efficiency of the team, resulting in streamlined workflows and improved productivity.
- Contributed to the development of various web applications, focusing on frontend design and implementing critical functionalities such as EMI calculators, loan calculators, and investment tools for our client's website.
- Demonstrated expertise in the financial sector by working on diverse banking applications, including money transfer, card replacement, card control, card blocking, and claim center applications.
- Engineered feature-rich client websites with a meticulous focus on meeting all requirements, resulting in the creation of high-quality, well-structured code.
- Played a pivotal role in the continuous development and maintenance of bank websites, integrating the latest updates and addressing security vulnerabilities for enhanced cybersecurity.
- Diagnosed and resolved various bugs and issues within the client's website, contributing to the continuous improvement and seamless operation of the online platform.

Application Developer - IBM (May 2018 - Jul 2021)

- Led multiple end-to-end change deliveries on client applications using an Agile approach, employing React, HTML, CSS, JavaScript, and APIs for seamless integration.
- Elevated the functionality of the existing client website by incorporating additional features through the implementation of cutting-edge web frameworks.
- Functioned as a full-stack web developer, creating an informative team website to facilitate easy access to project details and essential information for team members.
- Implemented a robust CRUD application for database interaction, demonstrating proficiency in executing SQL queries for data retrieval, updates, and inserts.
- Developed WEB APIs to support a client-based application, contributing to the smooth operation and functionality of the system.

Education:

KIIT University, Bhubaneswar (2014-2018)

BTech - Information Technology
